

SICK ATTORNEY CAUSES CASES TO BE POSTPONED

In Judge Dickey's court this morning several cases that were set for trial had to be continued on account of the illness of Attorney Straus, who was unable to attend to the interests of his clients.

In the case of Kate Lee, who is charged with assaulting License Inspector W. P. Pennell, the matter was put over till Thursday for plea.

In Judge Robinson's court the Ke-who damage suit still holds sway and the principal witness heard this morning was Professor Kruse, who testified as a skilled agriculturist. He told of having examined soil near Fort de Russy and of having made some borings to determine the nature of the sub-strata in the district. The case will last a long time and there is no end in sight yet.

Judge Whitney was busy all the morning hearing several administration matters. This afternoon the matter of the United Chinese Society against Mun Lee Wai will be heard. Bishop & Co. was appointed administrator of the estate of Morgan B. Sashland, no bond being required.

MANY WILLING TO TAKE JOBS ON THE FIRE AND POLICE DEPARTMENTS

Thirty-eight applicants for positions on the police or fire department took the civil service examinations Saturday afternoon at the McKinley High School. The number who passed has not been given out yet.

The examination at the High school was on mental qualifications, and before taking this examination they were examined as to their physical fitness for a position in the departments. Many of the applicants were Hawaiians.

Central Union church members listened to two powerful and interesting addresses yesterday. At the morning service Dr. Thomas Scudder spoke on the subject, "The Peril of Privilege," and at the Christian Endeavor meeting in the evening Spencer Bowen, manager of the Associated Charities, told the members of the work which that organization is carrying on.

IF CHILD IS CROSS, FEVERISH AND SICK

Look Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages, and for grown-ups, plainly printed on the bottle. Beware of counterfeiters sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt—advertisement.

ANY OLD PARTY CAN GET NAME ON THE BALLOT

Deputy City and County Attorney Gives Answer to Troublesome Question

Does it lie within the power of the city and county clerk to determine if a political party is eligible to have its name placed on her primary ballot? If an organization makes a demand on him to put its name on the ballot, must he put it on without making inquiries to ascertain if it is a properly organized party?

These are questions which have been bothering City and County Clerk David Kalaokalani, Jr., and he has received a legal opinion from P. L. Weaver, deputy city and county clerk, in which the latter appears to hold the view that the clerk may not inquire if a party is regularly constituted, but must recognize any de facto party.

This opinion, followed out, may open up several difficulties for the primary. The law says that such parties as have regularly constituted central committees and county committees, etc., have the right to have their names on the ballot. There are several political or quasi-political parties here, as: Democratic, Republican, Home Rule, Socialists, Prohibitionists, Progressives, etc., and then there is the new and unnamed party of Hawaiians. Only about four of the above named have county and central committees, yet under Weaver's opinion, it appears that the clerk must put all their names on the ballot if requested, without ascertaining their status. Hence there may be more parties than candidates at the next election.

"Replying to your letter of April 3rd, 1914, I herewith state my opinion in regard to your power to use discretion in the matter of recognizing a political party. You ask whether the city and county clerk is bound to recognize as a political party, and to that end allow a party column on the primary ballot, an association of voters united for the purpose of promoting a common political end, or carrying out a particular line of political policy, which partially maintain or which do not maintain a general organization throughout the territory, including a regularly constituted central committee and county committees."

"My opinion is that the county clerk must recognize a de facto political party. He may not inquire whether there be a regularly constituted central committee or county committee."

As a result of a quiet inspection trip to a number of the larger sugar plantations on the island of Kauai, Harbor Officer Alfred Carter returned to Honolulu on Sunday morning, having in his custody George Hummel, Charles Teisler and Frank McTaler, who are alleged to have deserted from the United States army. Carter received a tip that the men had secured employment on Kauai. He found them at work in a cane field and two of the men were quite willing to accompany the officer to Oahu and take the consequences, claiming to have had enough of tilling the soil. The trio was turned over to the military authorities.

PERSONALITIES

DR. W. J. GOODRUE of Molokai is away on a vacation, and Dr. McCoy of the Federal Leper Station, is acting in his stead.

LESLIE SCOTT, deputy attorney-general, departed for Hilo on Saturday last in order to assist the graft commission in its probing of Hawaii affairs. A wireless was received by Attorney-general Stambaugh and the message requested that an officer of the department be sent to Hilo.

W. H. RICE, Mr. and Mrs. Philip Rice, Charles A. Rice and F. Weber are among the Lihus, Kauai, residents, who are recent arrivals in Honolulu. They are registered at the Young hotel.

SUPT. KINNEY IS INSPECTING ISLAND SCHOOLS

Superintendent of Public Instruction H. W. Kinney spent Sunday visiting the schools on the Ewa side of the island. The new superintendent wished to obtain first-hand knowledge of the condition of the various school buildings and to see for himself what is needed in the way of new structures, or as regards repair work. Inspector George Raymond made the rounds with the superintendent and the school houses were given a thorough inspection.

In the near future the superintendent will pay a visit to the schools on the windward side of Oahu. Later on he will travel on Kauai, Maui and his old home island, Hawaii.

Speaking of changes that may be made in the department, Mr. Kinney stated that as far as the position that has been vacated by Charles King goes, he sees no necessity for anyone being appointed to fill the vacancy.

The county attends to the matter of new school buildings, but the superintendent feels that if he can point out ways to save money, the schools will be only too glad to do so.

ARMY NOTES

Of special interest to army people on Oahu is the assignment of colonels of infantry to regiments, contained in war department orders that have just reached here.

Following is an abstract of the orders issued April 27.

NOTED TEACHER AND MISSIONARY IS LAID AT REST

where she taught Sunday school, and from which the funeral was held this morning.

Miss Maroni was a member of the Frances Willard Temperance Society, holding a medal presented her by Frances Willard; and she was an associate member of the Red Cross society, receiving a letter of thanks and an autograph photograph from the emperor of Japan, at the time of the Russo-Japanese war, in appreciation of work she had done for the Red Cross in this connection. Temperance work among the Japanese in these islands deeply interested her.

The King's Daughters, in Kohala, united to provide Miss Maroni with a home in her declining years, but she would not receive it. Then the establishment of the King's Daughters' Home was made possible by the initial generosity of Mrs. W. F. Allen, who first gave \$500 and then \$1000, and Miss Maroni and Mrs. Margaret Leone Healy were the first to abide there. Both have passed away. It was at this comfortable home, where Miss Maroni found refuge. A cultured, refined and exceedingly generous character, she retained nothing for herself. As a musician, many will long remember her through her songs, "Lillehwa," and "Oahu."

There are no known relatives living.

ARMY OFFICERS WILL BE AT THE AD CLUB MEETING

Tomorrow noon is Army Day and Schofield County Fair rally at the Ad club.

General Carter will be there, General Edwards will be there. Lots of other army officers will be there, and everyone in the Ad club membership is expected to be on hand to give a good greeting to the commanders of the army here and at the same time give a good send-off for the great county fair expedition which is to move on Schofield Wednesday noon.

Mayor Fern will be there, and Capt. Berger will be on hand to give the club a strain from his new Ad club song which has been in process of composition.

Levenson will tell the Ad club men what to do at the county fair. Hutton will have a good stirring song and other songs will come in.

Ad club men are planning to be on hand at the luncheon and at the fair, to show the army men that they are glad they are here.

Be on hand tomorrow.

ADULTERATED SESAME OIL ONE OF TROUBLES OF FOOD COMMISSIONER

Government Analyst and Food Commissioner A. W. Hanson is having a lot of trouble regarding the importation of a Japanese food oil called Goma Aubura (Sesame Oil). The stuff that is reaching Hawaii lately has been adulterated, mostly with cotton seed oil.

The oil is used a great deal by Japanese for cooking purposes and also as a kind of butter. The adulterated stuff is not nearly of the same food value as the genuine article and Mr. Hansen is forcing the importers to label the artificial oil as such.

According to the food commissioner, the milk and ice cream now being sold in Honolulu is of a very high standard. Samples of every ice cream vendor's stuff were taken two weeks ago, and only one sample was found to contain less than 14 per cent butter fat. The lone sample was marked at 12 per cent and, as the merchant promised to raise the percentage to 14, no prosecution was instituted.

All food stuffs that are imported are subject to the inspection of the food commissioner. He reports that the standard is improving everywhere and that the Japanese canned goods are much better than they used to be. The Goma Aubura trouble is the only one that worries the commissioner at present.

MERCHANTS WILL BE ASKED TO SEND HELP TO THE COUNTY FAIR

Merchants of the city will be urged to allow their employees a half day off to attend the County Fair at Schofield and pay for the train ticket and admission of these employees.

This is the gist of the decision reached by members of the Merchants' association directors' meeting at luncheon this noon. Many have urged that business houses of the town close generally on Friday afternoon. Others felt that Wednesday afternoon would be the day and still others did not know that any advantage would be gained by closing at all.

Finally after canvassing the situation thoroughly it was proposed that Secretary Warren send out a card to all members expressing the hearty support which the County Fair has, and at the same time urging that all employees be given an opportunity to visit the fair, either on Wednesday or Friday and that each employee be given a ticket by the firm so that all will be sure to get there.

LOCAL AND GENERAL

The members of George W. De Long Post No. 45, G. A. R., will meet at 7:30 o'clock this evening in the U. S. W. V. hall, Alakes and Merchant streets.

A special meeting of the King's Daughters will be held at 4 o'clock this afternoon in the building at Alakes and Hotel streets now occupied by the Christian church.

A meeting of the members of Hawaiian Lodge No. 21 has been called for 7:30 o'clock this evening. Important business matters will come up for discussion and a full attendance is requested.

The Hawaiian band will give a concert at the public baths, Waikiki, at 7:30 o'clock tomorrow evening, following which it will provide music for the public dance to be held at the same place.

Special services were held at Oahu prison yesterday morning, at which time John Martin and Judge A. S. Humphreys were the speakers. Both talks were timely and were listened to with much interest by the inmates. Music was furnished by the prison quartet.

A meeting is to be called early this week for the purpose of electing officers for the new Moose lodge in Honolulu, which step will perfect the organization. A number of eligibles signed the roster of the new lodge at a meeting yesterday in the Odd Fellows' hall.

Librarian R. C. Lydecker has made a record of all the documents filed in the archives relating to the visit to Honolulu in October, 1846, of the Danish frigate, Galathea, commanded by Post Captain Steen Anderson. The Galathea was the first Danish man-of-war to visit the "Sandwich Islands" and, while in the group, Captain Bille negotiated a treaty with Mr. Wyllie, Hawaiian minister of foreign affairs.

An excellent ethnological collection of weapons and domestic implements from the New Hebrides, New Guinea and the Solomon Islands has been received by the Bishop Museum from a firm in Sydney, Australia. The collection includes, among other things, 15 skulls from an extinct cannibal tribe in the New Hebrides, as well as bows and arrows, and other weapons and implements which are rare and interesting.

"Sources of Information on Recreation" is the title of a pamphlet which has just been issued by the department of recreation of the Russell Sage Foundation of New York City, copies of which were received in Honolulu this morning. The pamphlet is a useful one, not only to the professional recreation worker but to the public-spirited citizen who is interested in community welfare. In it are listed a number of books in which information concerning recreation may be found, which books doubtless are on file at the local library. The pamphlets sell at 10 cents each.

LITTLE INTERVIEWS

—WILL MILES: It serves the democratic party right to have a mainlander appointed to the postmaster position here.

—P. L. WEAVER: The proposed new ordinances governing the water and sewer systems are about ready now for presentation to the board of supervisors.

—HARRY LAKE: It is tough when a man is accidentally locked up in a club for the night. I hear that a new arrival in town met that fate the other night.

—PAUL JARRETT: The Hilo Boat Club should be a live concern and there is no doubt that they will send a crew down next year to compete in the annual regatta.

—JOHN ANDERSON: Every Saturday morning 75 boys who are on parole report to me for instructions. They arrive late sometimes, and then they get it in the neck, so to speak.

—L. B. REEVES: Since breaking into the literary game, each mail contains flattering offers for stories of a tropical setting. Jack London and John Fleming Wilson have nothing on me.

—JAY A. URICE: The educational classes of the Y. M. C. A. now have 100 more students enrolled than last year. The last fiscal year has been a big one in the association's night school.

—HARBOR OFFICER CARTER: I have received a score of congratulations today over the receipt of \$150. I have yet to see the color of the money. In recovering three deserters on the island of Kauai, I was put to considerable expense.

—SPENCER BOWEN: Some of the unemployed seem to think that it is more profitable to beg on the streets and run chances of being arrested, than to go to work where they may earn at least \$1.25 a day, secure a house free of charge, and be protected. It's a queer problem.

—JAMES W. ROBERTSON: Five days may not be considered a very long stay on the coast, but I managed to accomplish considerable during the time that the Sierra remained at San Francisco. In addition to visiting the bay cities I did not care to wander very far from the gay delights of San Francisco.

SAMUEL PARKER TRACED THROUGH TASTE FOR POI

The whereabouts of Col. Sam Parker, the Hawaiian capitalist, was disclosed Wednesday through telegraphic instructions he sent to the Hotel Stewart to forward to him a can of poi, the famous Hawaiian native dish, says the San Francisco Chronicle.

Colonel Parker was taken dangerously ill in Washington, D. C., a week ago and rushed across the continent in a special car, and local friends who received the first reports of his illness have been anxiously awaiting further news as to his condition.

The can of poi was placed in charge of a special messenger and rushed to Paso Robles, Hot Springs, where Colonel Parker arrived two days ago. He is reported to be greatly improved. He is attended by his son, Ernest Parker, and the Hawaiian delegate to Congress, Prince Kalaniano'ole, and the Princess Kalaniano'ole are also with him.

Colonel Parker has always kept a supply of poi at the Stewart for his table during his visits to this city, and his demand for his favorite dish is taken as confirmation of the report of his improvement.

WOMEN SHOULD TAKE WARNING

If the statement made at a New York assembly of women, that healthy American women are so rare that they are almost extinct, is true, it is time for the women of America to take warning and look to their health. It may be headaches, backaches, dragging down pains, nervousness, mental depression, that are tell-tale symptoms of some organic derangement for which Lydia E.
